

# Beastly Matches

Try your hand at matching parents to their babies. Look at the adults below and draw a line to their young. Decide if the babies and the parents are mammals, reptiles, amphibians, insects or bacteria.

Now, draw a picture of a youngster and its parents. Mail your picture to the Zoo, and we will display it in the education building. Send your picture to:  
Mrs. Carolyn Brown; Education Division; North Carolina Zoo;  
4401 Zoo Parkway; Asheboro, NC 27205.
